Dear Richard, Martin, and Ben,

On behalf of everyone else in the OVSI Concentrator group, I would like to take this opportunity to express our gratitude to Cambridge Precision Ltd for arranging and hosting the meeting with the team from CREATIVenergie last week. It was a useful and interesting morning, and we are very much looking forward to seeing how things progress from here.

We are particularly grateful to Martin and Ben for leading tours of the shopfloor, it was fascinating to see Cambridge Precision Ltd.'s impressive set up first-hand, and to gain a sense of how the different machines operate.

Cambridge Precision Ltd.'s ongoing commitment to, and support of, OVSI has been vital in the programme's success to date, without this the programme simply would not be at the stage that it is.

Thanks again, and very best wishes,

A handwritten signature in black ink, appearing to read "LARA", written in a cursive style.

Dr Lara Allen
